

When the people's property  
is taken from them  
(1844)

How he yowls! I have  
the heart of a lion  
to fight

When your enemies  
have done you wrong  
the Church does not  
compensate you for  
all who they have

I have just returned to the  
best part of the  
country

I have just  
returned to the  
best part of the  
country

I have just  
returned to the  
best part of the  
country

I have just  
returned to the  
best part of the  
country

I have just  
returned to the  
best part of the  
country

And you are  
the people's  
property

On the ground  
of the people's  
property

On the ground  
of the people's  
property

On the ground  
of the people's  
property

On the ground  
of the people's  
property

On the ground  
of the people's  
property

On the ground  
of the people's  
property

On the ground  
of the people's  
property

Then the people's  
property is taken  
from them

Then the people's  
property is taken  
from them

Then the people's  
property is taken  
from them

Then the people's  
property is taken  
from them

Then the people's  
property is taken  
from them

Then the people's  
property is taken  
from them

Then the people's  
property is taken  
from them

Then the people's  
property is taken  
from them
